2.4GHz BULLET WFP0200504

Made for laptop & wireless PDA's including for mobile & body worn applications. A diverse antenna with a nearly spherical pattern allowing change of position yet maintaining signal. This antenna is ideal for handheld & close-to-body deployments. Can be connected to any PCMCIA/PC or USB wireless card that allows an external connection with appropriate pigtail. Or directly mounted to a "N" female on a PCB or hand held device
All WiFi-Plus antennas provide obstruction penetrating qualities.

Manufacturer	WIFI-PLUS
Model	-BULLET 2.4GHz
Type	Special Spherically Patterned Laptop-PDA OMNI-Directional Antenna
Product Narrative	OBSTRUCTION PENETRATING POSITION INDEPENDENCY... User gets comfortable while signal is maintained with position change
General Freq. (MHz)	2400-2500 (802.11b & g)
Gain (dBi)	2 dBi
Polarization	H&V
Azimuth Beamwidth	~360 degrees
Elevation Beamwidth	~360 degrees
VSWR	1:1-1.8:1
Overall Size	2.5"H X 1"diam.
Weight	1.5 oz.
Termination	N-Male
Mounting Style	Direct mount to a "N" female on PCB or pigtail
Warranty	1 yr.

All spec's, azimuth and elevation graphs created by Jack Nilsson
