5GHz OMNI Antenna WFP0200526

The 'WiFi-Plus OMNI' is a general use workhorse. All Wifi-Plus antennas provide obstruction penetrating Technology. This antenna is ideal for indoor or outdoor deployment and can be connected to **any access point, PCI card, PCMCIA card, Mesh radio, amplifier, etc.** that allows an external connection. Pigtail conversion may be necessary. The WiFi-Plus Omni is very popular for **mobile connectivity (roof-mount version available)** due to its small size and ease of mounting and flutter reduction.

Manufacturer	WIFI-PLUS
Model	OMNI
Type	OBSTRUCTION PENETRATING SIGNAL STABILIZING (even with movement...Rayleigh Fade-compensation)
Product Narrative	Highly effective patterning Flutter-reduction (Geometric Spatial Capture of Signal) Small size AP or CPE WWAN/WLAN/MESH Networks Outside/Inside applications
General Freq.	5GHz
Gain (dBi)	3Dbi
Max. Input Power (Watts)	50
Polarization	H&V
Azimuth Beam width	360 degrees
~Elevation Beam width	200 degrees
VSWR	1:1-1.8:1
Overall Size	1" diam. X 1.5" ht. (*)
Weight	1 oz. (*)
Termination	SMA-Female
Mounting Style	Multiple incl. wall/mast, ceiling and vehicle
MSRP	
Warranty	1 yr.

All azimuth and elevation graphs were created by Jack Nilsson
