UWB-BULLET 2.4-5.8GHz WFP0200601

Made for laptop, roaming or body worn applications. A diverse antenna with near spherical patterning.

All Wifi-PLUS antennas provide obstruction penetrating quality.

This antenna is ideal for handheld or close deployments. It can be connected to any access point/wireless router, wireless USB/PCI/PCMCIA card that allows an external connection. Pigtail conversion may be necessary. The MP-BULLET is very popular for extending your range of wireless laptop/portable devices and for providing position independency.

Manufacturer	WIFI-PLUS
Model	UWB-BULLET 2.4-5.8GHz
Type	Special Spherically Patterned Laptop-PDA antenna
Product Narrative	OBSTRUCTION PENETRATING POSITION INDEPENDENCY
General Freq. (MHz)	2400-5800MHz continuous
Gain (dBi)	1.5
Max. Input Power (Watts)	100
Polarization	H&V
Azimuth Beamwidth	360 degrees
Elevation Beamwidth	360 degrees
VSWR	1:1-1.8:1
Overall Size	2.5"H X 1.0"diam.
Weight	1.5 oz.
Termination	Extended N-female
Warranty	1 year
