5.9GHz 90 degree 'Single-Sector' WFP0200672

This WiFi-Plus Single-Sector small antenna is great for AP and mesh radios in obstructed/dynamic environments such as for city/municipal deployments, for uploading stored video from police vehicles, etc.
All WiFi-Plus antennas provide penetration technology, This antenna is ideal for outdoor or indoor deployment.

Manufacturer	WiFi-PLUS
Model	<i>Single-Sector 5.9GHz Antenna</i>
Type	Sector Antenna
Product Narrative	Small Size - Aesthetic Noise-Reducing 'Obstruction-Penetrating' 'Geometric Spatial Capture of Signal'
General Freq. (MHz)	5900
Gain	10 dBi
Max. Input Power	50 Watts
Polarization	H&V
Azimuth Beamwidth	90 degrees
Elevation Beamwidth	35 degrees (Mounting arm is factory-angled to center the elevation pattern signal at the horizon)
VSWR	1:1-1.8:1
Overall Size	1.5" H X 4.5" W X 1.5" D
Termination	SMA-Female (Coaxial cable not included)
Mounting Style	Mast/Wall mount
Mount Hardware Included	YES
Warranty	1 year
